

Features – Benefits

- Small size – huge floodlight output
- Very compact – weighs only 7 ounces
- Rechargeable Li-ion battery
- High: 420 lumens, run time 2 hours
Low: 160 lumens, run time 5 hours
- Flood-style 2:1 beam pattern provides 8 foot beam diameter at 4 foot distance from the light
- Powerful magnetic base
- Battery charge status indicator
- LED “bulb” is virtually unbreakable and lasts up to 50,000 hours
- Handle rotates 180 degrees with 7 indented positions
- Liquid ingress protection: IEC IP64 standard
- Impact resistance: IEC IK07 standard
- Includes USB cable

Summary

The WorkStar® 800 Area Work Light is a compact, lightweight floodlight designed for daily use in demanding shop environments. The brilliant white flood-style light beam produces a clear, even pattern that is free from hot spots and dark spots. This high performance light produces 420 lumens on high and offers run times from 2 hours to 5 hours depending on light output setting. The powerful magnetic base, built into the handle, secures the light to metal surfaces and allows the light to be angled through a 180 degree range to illuminate the work area. Includes USB cable.

Parameter	Performance
LED Brightness	High = 420 lumens, Low = 160 lumens
Power, Color	Custom, Cool White, 3.8 W
Switch	ON/OFF push button switch also controls 2 brightness levels
Beam Ratio	The diameter to distance ratio is 2:1, meaning the beam diameter is about 8 ft wide when the light is 4 ft from an object.
Batteries Included	3.7V 1800mAh LiPo (Li-ion Polymer) rechargeable battery
Run time per charge	High > 2 hours, Low > 5 hours
Recharge Time	3 hours
Charge Indicator	Red/green LED
Dimensions	3.5 x 2.5 x 1 inches (9 x 6 x 2.5 cm)
Weight	7 ounces (200 grams)
Ingress Protection	IP65 = dust tight + protection from water jets and rain
Impact Test	IK07 = 2 J
Drop Test	6 ft (2 m)
What's Included	WorkStar® 800 with rechargeable LiPo battery, USB to Micro USB cable
Warranty	1 year against manufacturing defects
